# Our viewers

«Wild» tourists — a tent, a backpack, a bicycle or hitchhiking, ingenuity and resourcefulness instead of currency. No insurance and no special preparation.

«Independent» — air tickets, hotel or apartment, car rental, insurance, navigation in an unknown city, tickets to a museum, and so on — this is like Lego blocks, collected by the traveler with the help of imagination, smartphone and the Internet in a unique Journey. According to statistics, independent travel is experiencing rapid growth and is pushing back the type of «packed» tourists.

«Packed» tourists — like to travel without surprises and with comfort. Flight, travel, accommodation, excursions, meals — everything is prepared in advance by the host party (Tour Operator). Everything is included except... real unplanned experiences.
